Terms and Conditions of Service – Placenta Encapsulation

Bump2Baby treats every birth and Placenta as sacred, and as such our bookings for encapsulation are limited. By booking with Bump2Baby, we have allocated you a valuable place, allocated time and resources towards your pending birth and postpartum.

A non-refundable booking deposit of \$100 is included in your booking fee – This is to hold your position on my calendar, my on-call fee and fee for all administration paperwork, emails or calls associated with your booking.

Prior to booking your Placenta Encapsulation, please contact Alissa first if you are on any medications, have any conditions or concerns that you are unsure if you will be compatible with encapsulation.

Due to the specialised equipment required and the limitations of capacity and availability, I kindly request that women ensure their alignment with my service prior to making a booking. I reiterate that there is no pressure exerted by myself at any stage to proceed with the service.

Once you have secured your booking a phone call will be made to you by Alissa to discuss which method of encapsulation you wish to choose – either RAW or TCI methods are available. If you are unsure which is for you then we can discuss each during this call. Pick-up and delivery details will also be covered during this call. You are also sent via email a copy of the process including important information on storage, responsibilities and pick up/delivery details. **This email again emphasis if you have questions, concerns, or questions in regard to your Placenta Encapsulation PLEASE call Alissa – I am happy to discuss so you can make an informed decision.**

In the case of cancelling your booking for any reason the non-refundable processing fee of \$100 will be kept and balance returned to you once bank details have been received. This includes:

Change of Mind

Incorrect storage until collection

Or if you have been advised your placenta isn't fit for encapsulation and placenta has been disposed of or incorrectly stored.

Please be aware that many health professionals have their own option regarding placenta encapsulation. We take great care in ensuring our handling of your placenta is at the highest safety and calibre. BUT ultimately you have the autonomy to make your own decisions based on what you feel is best for you.

It is the responsibility of the woman to ensure her Placenta is handled and stored correctly until collection. It is also critical to let your support person aware as you are going to be occupied birthing your baby, so it's recommended to give someone you trust this responsibility.

If your pregnancy care is transferred to a location outside of our travel region – please call Alissa to discuss as we can meet at a mutual location to collect and express post your capsules back to you.
